GDPR COMPLIANT

Magento extension

1. Install out-of-the-box open source plugin, free to use and modify
2. Shop **creates free account** on https://app.e-invoice.be
3. Configure e-invoicing via Store Configuration

That's it!

- Kicks in after `sales_order_invoice_pay`
- Works even when e-invoicing is already in place via accounting or ERP
  - Peppol allows multiple outboxes
- Storing e-invoice ID in sales invoice records
  - Access to raw UBL and attachments
  - Invoice and business-level status updates (later if supported by the standard)
- Optional: Forward sent e-invoice via e-mail

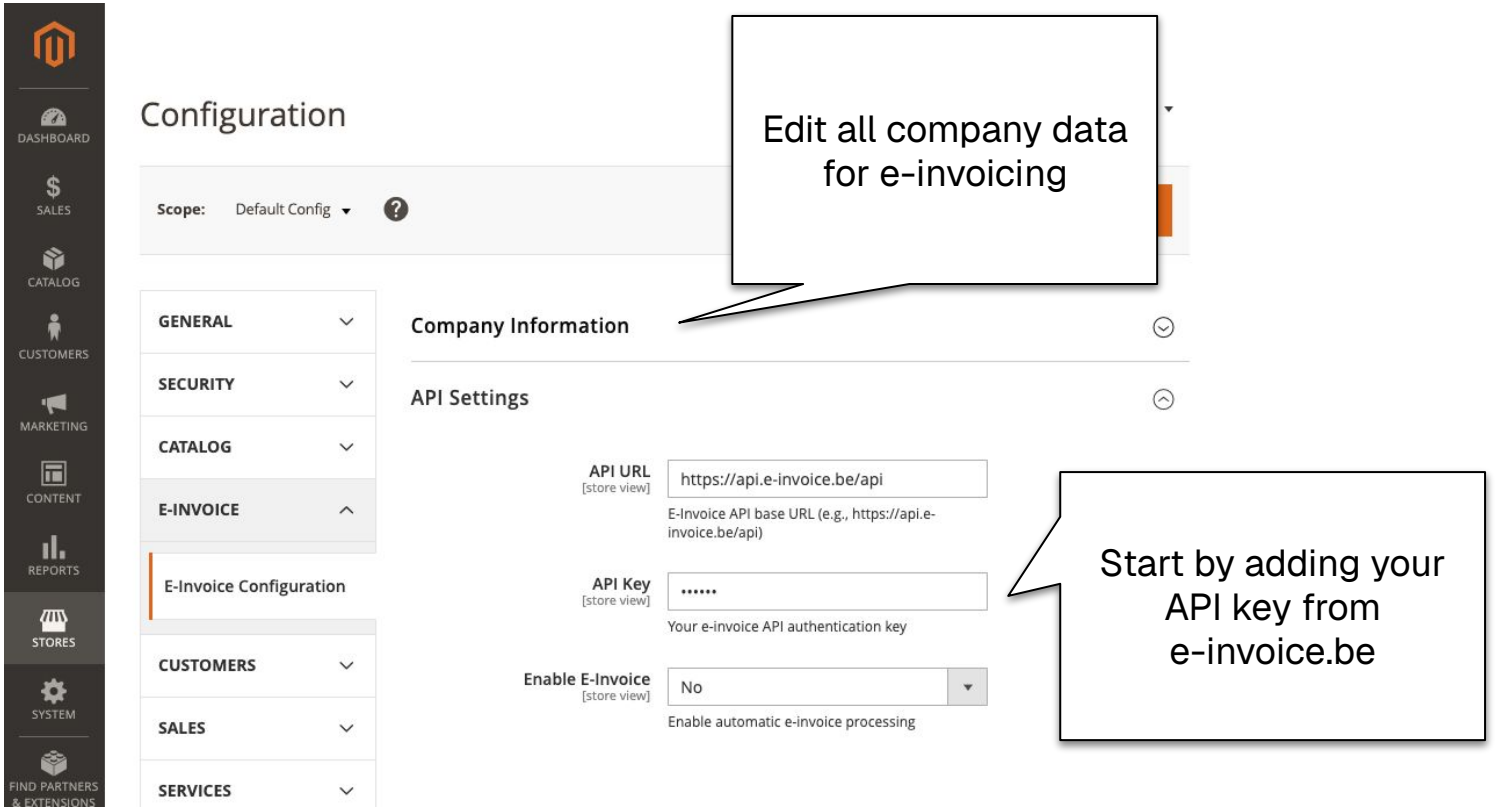
Simple admin interface



e-invoice.be

Magento module - technical

- Hook after `sales_order_invoice_save_commit_after`
- Logic to decide if e-invoice is required
- Extension
  - fetches store, invoice, invoice PDF and order data
  - sends to e-invoice.be API to create e-invoice incl PDF attachment
  - store e-invoice document ID
  - sends e-invoice to customer

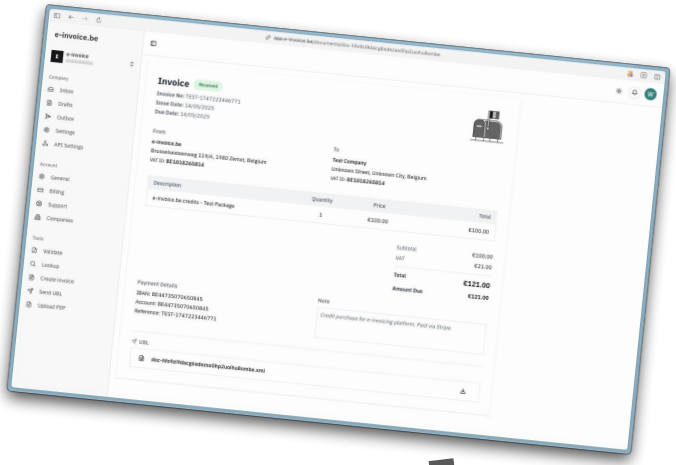
(same for credit memo)

Extensions:

- Fetch UBL manually and add to Magento
- Implement webhook after successful delivery

Management app

- All-in-one solution for sending, receiving and consultation
- API management
- Billing
- Simple e-invoice builder
- Automatic conversion of PDF/Word/Excel invoices to e-invoices
- Forwarding e-invoices to mailbox
- Gmail-alike interface for ease-of-use



Fork and host your own!
